

## WESTERN SYDNEY INTERNATIONAL AIRPORT (BEP) UTILITIES INSTALLATION AND RELOCATION WORKS

Gremalco was awarded two scope of works by CPB Contractors and Acciona Joint Venture, under the Bulk Earthworks Package (BEP) for the landmark Western Sydney Airport project. The BEP is a critical package to enable the airport to open in 2026.

**Client: CPB Contractors and Acciona Joint Venture**  
**Contract Value: \$2.3m**

For the **Adams and Anton Roads (AAR) Upgrade Utilities Works**, Gremalco is undertaking the following works:

- Endeavour Energy distribution and 132kV transmission infrastructure
- Sydney Water Infrastructure including a DN 375 sleeve road crossing
- Telstra temporary and permanent infrastructure

These works will facilitate the upgrade of Adams Road and the section of Anton Road in Luddenham, outside of the Western Sydney Airport site, to enable use of these roads by B-Double vehicles for access to the Western Sydney Airport fuel farm.

For the **Badgerys Creek Road (BCR) Roundabout Utility Works**, Gremalco is constructing:

- Electrical infrastructure and street lighting
- Sydney Water infrastructure including the installation of a DN300 water line
- Telstra and other communications infrastructure

These works support the Badgery's Creek Road realignment between Elizabeth Drive and Longleys Road including the construction of a new roundabout on Elizabeth Drive.
